**CALL FROM:** Shawna Hoppe **FILE:** M.C. Canfield & Sons Former PI: 562176

**DATE:** 6 August 2012 **TIME:**

**PHONE No:** 732.321.6625

**AFFILIATION:** EPA On-Scene Coordinator

**SUBJECT OF CALL:** Information

**SUMMARY OF CALL:**

Ms. Hoppe called with questions about the company that owned the property prior to KHovnanian's (KHov) development of the site. I advised Ms. Hoppe that she could do a title search to determine the property owners prior to KHov and I also suggested going to the City tax and construction office to review any records that might be in their possession, provided the City has not followed a records destruction schedule. Along with the previous, I informed Ms. Hoppe that if a company subject to ECRA/ISRA ceased operations prior to December 1983 there was no automatic filing and remedial activities. I informed Ms. Hoppe that I found a company that may have operated at the site – DGRM Corp. formerly known as Canfield Technologies, Inc. formerly known as M.C. Canfield Sons. I explained that she would have to review deeds and whatever the City has to determine if and/or when the company may have owned and/or operated at the site. I also informed Ms. Hoppe that DGRM Corp. had its charter revoked for failure to pay its annual report fees in 2005. I also noted that the company appears to be operating in Sayreville, NJ. Ms. Hoppe advised that an information session for residents will be held on 15 August 2012 from 2pm to 4pm and 6pm to 8pm.
